- The rest of this article is information about 3 **hemorrhoid treatments** that are solid and have worked.

Several Times Daily You Need to Sit in a Warm Bath

Do not use scolding hot water to treat hemorrhoids. Warm water has a very soothing effect on any inflammation, including hemorrhoids. You don't have to stay in the bath for too long, and ten or fifteen minutes at any given time is usually enough. Apart from calming you and controlling your symptoms, frequent baths will help to keep this area clean, which is very important when it comes to treating hemorrhoids.

We'll tell you about a particular natural kind of hemorrhoid treatment called psyllium, and yes there were many people who have used it together with success. People often mix it with other drinks and foods, and also it comes in powder form, granules, and of course in a pills form. Several common disorders regarding ispaghula are IBS, or Irritable **Bowel** Syndrome, and psyllium is a natural kind of laxative and people often take it for constipation. When you take this, you have regular bowel movements that are easy to pass. If you have hemorrhoids, then you probably know about the pain associated with excess tension during bowels. If you are taking a prescribe medicine from your doctor, always obtain cleared before trying any form of alternative treatment like herbs, etc.

“ Just like any other treatment, there are times when the natural treatments are ineffective for a serious **hemorrhoidal** problem. Sometimes hemorrhoids need to be surgically removed only because they are advanced and the symptoms do not respond to other standard treatments.

“
